Data Science for Women Summer Camp
Camp Counselor

The Translational Data Analytics Institute (TDAI) will host the Data Science for Women Summer Camp (go.osu.edu/datacamp) from July 13-17, 2020, for young women from Central Ohio middle and high schools. We are seeking energetic undergraduates with a data analytics / data science background to serve as camp counselors.

Position Roles & Responsibilities
Undergraduate counselors will work directly with small teams of campers through specific analytical projects, which are designed to introduce young women in grades 8-10 to data science and analytics.

Counselors will also assist in supervising campers during all programming, field trips, and projects.

Location:
Pomerene Hall

Term
July 13-17, 2020
There are 5-7 positions available

Pay Rate
$15.00 per hour

Qualifications
Work schedules will be set up individually to provide flexibility for classes or other jobs. Applicants must be available to work most days from July 13-17 between 8am-5pm.

Counselors must be a current undergraduate student who can travel to campus daily. Counselors will be working directly with campers on data analytics projects; as such, knowledge of Excel, R, and other data platforms is preferred.

Counselors will be required to complete the university’s Minor Training and pass federal background checks. Students who will work at the university or are enrolled in classes during the summer will have additional requirements.

Applicants must email Jenna McGuire (mcguire.165@osu.edu) with a cover letter and resume by April 3, 2020.
